By "Bob" Greer

Zip! Zip! \*and the Douglas high pagers swung through two three point margins to take both Kimball and Gary in the State tourney at Charleston last week-end.

Thy must hve been very hot indeed to take the Bulldogs into camp in the finals after a heated 53 to 50 overtime.

Coach King of the Terrors asked me yesterday if I intended offering apologies for the bad showing of teams from this section in the tourney.

No, indeed! We didn't win the cup, but ya can bet your boots the \*presence of our teams was felt. Why apologize for a group of lads who fight until the final gun? My money is still with the stellar lads of McDowell. And hats off to a bunch of grand sports who come back with chins up even after a major loss.

And another thing — ya' can not still get me to believe that the Bulldogs don't have the best team in the state.

Looks as if we are going to have that Junior hoop tourney after all, and go on record as sponsoring the first such cage tilt for the Negro schools of this section.

A meeting of coaches and principals OKed the plan in a meeting Tuesday evening at Northfork, even the "Super," Mr. Carroll, is heartily in favor of the idea — wonder if it's his brain-child?

Nevertheless, the tourney will be held at the Elkhorn court and is slated to begin next Friday (28h). Schools represented will be Keystone-Eckman, Gary, Elkhorn, Northfork, Excelsior and Kimball. With

## Imperial Muffins for the Week-End Guests

SO YOU'RE worried what to serve for breakfast when guests arrive this week-end?

Starting with the fruit, why not have sliced honeydew with sweet, red cherries scattered over it and over the plate—for appeal, you know. Or serve chilled, fresh apricots and seedless grapes on glass plates (on grape leaves, if you have them). Follow with eggs baked in bacon rings. And for this, simply ring muffin cups with bacon, drop in the egg, bake until the egg is set, and there you are, pretty and easy. It's taken for granted you'll make plenty of hot coffee.

To crown this summer breakfast—in name and flavor—make imperial muffins. They're easy as saying "scat" to mix up if you use the new, self-rising flour. Baking pow-

der and salt are ready-mixed into it, thus a double saving of (1) price of these two ingredients, and (2) time in sifting them with the flour.

You can use your favorite muffin recipe with the new, self-rising flour, omitting both baking powder and salt. But for your aid, here is one that's foolproof. Remember, as with all muffins, to work fast and mix ingredients only enough to blend well.

### Imperial Muffins

Cream 4 tablespoons fat and 3 tablespoons sugar together. Add 1 egg and stir in thoroughly (do not beat). Add 1 cup milk alternately with 2 cups new self-rising flour (sifted before measuring). Pour into well-greased muffin tins and bake in a hot oven (400 degrees F.) about 20 minutes.

this group there is a grand tourney in store for you fans who will come out to give the younger lads a good send-off, I am sure.

The team brackets and time of sessions will be given you a

little later just as soon as it is complete in committee.

## Peach Cake Is Good Come-On

MAYBE it's an outing you want next Sunday, or help with the curtains.

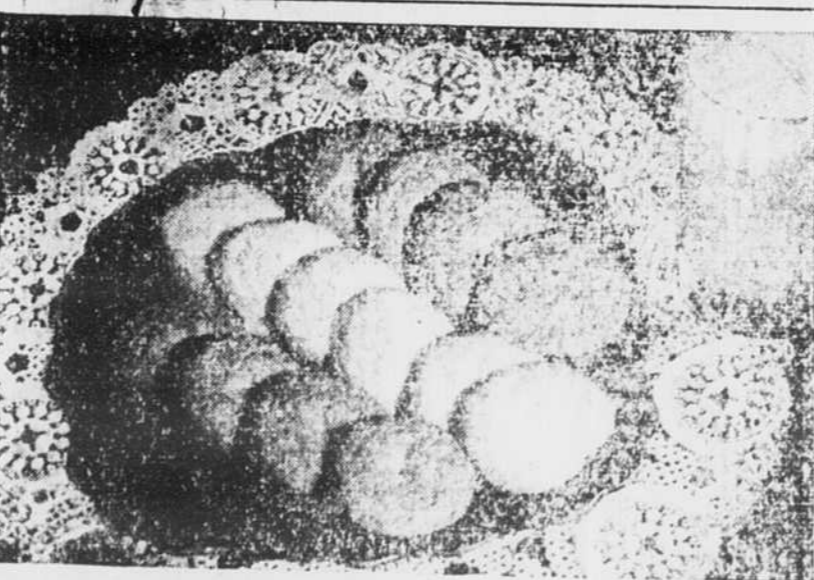

Whatever you wish from your family, a special Peach Cake for dinner will help win it. For right hand aid on this dessert, try the new self-rising flour now on the market. The new product has lots of advantages over the old self-rising flour, because action is slowed so that by the time your cake is mixed, the baking powder is only starting to work. Thus, you lose none of the "rising" power.

Here is the recipe to try with the new flour:

### Peach Cake

Cream 7 tablespoons of a scant 1/2 cup fat. Add 1/2 cup sugar. Cream until sugar has dissolved. Add 1 egg and stir in thoroughly (do not beat). Add 1/2 cup milk and 1 1/2 cups self-rising flour alternately. Add 1 teaspoon extract. Pour into a greased and floured cake pan, and bake in moderate oven (350 degrees F.) about 30 minutes. Whip 1 pint whipping cream and add 1/2 cup sugar. Split the cake. Spread lower half with 1 cup crushed peaches and half the whipping cream. Add top layer, and pile with another cup of crushed peaches and remaining cream. Garnish with peach slices.

## My-y-y-y, But They Are Good! They Say About These Cookies

COOKIES you can serve with fruit for dessert, or for in-between snacks, are a summer "must."

And cookie recipes that can be stirred up in a twinkling are a find. To aid your knack for making cookies fast, use the new self-rising flour which cuts sifting and measuring time in half. All you do is combine this new self-rising flour with fat, sugar, eggs, milk, and flavoring and your cookies are ready for the oven. They're more economical, too, for a high grade slow acting baking powder is already mixed into the flour.

For a good combination, try lemon cookies and walnut rocks, as follows:

### Lemon Cookies.

Cream 1/2 cup butter and 1/2 cup sugar together. Add 1 egg, and stir until thoroughly blended. Add 2 cups self-rising flour (sifted before

## Food Map of Europe as of Today

The starvation areas of Europe can be seen at a glance, above. This map will now darken from month to month as, in many countries, the last remaining food stocks reach exhaustion.

New York (Special) — All Europe is on short rations. Only tiny Portugal still commands a normal food supply. Before the first of the next harvests can be reaped, five months must elapse. In some countries, remaining food stocks will have been exhausted long before, when conditions of slow starvation which already exist will become actual famine. Moreover, in several European countries the harvest covers only a few months consumption.

The above map has been drawn to bring the threatened areas into relief. As may be seen at a glance, the British Isles, Germany, Italy and the Balkans, although all on rations, are not in danger. But the little, western democracies, always dependent on overseas supplies and now cut off by the blockade, are already on a semi-starvation basis.

Darkest, immediate spots in the picture are Belgium and Poland (the latter because of war devastation and partitioning). Here, actual famine already prevails. People are dying of sheer hunger. But Spain, France,

Holland, Norway and Finland are not far behind. The above map will now darken quickly from month to month. The terrible food emergency in Europe, so long forecast by food experts, is now but a step away.

Spain may be able to get some help from the Argentine. In the case of the other countries, however, their main hope seems to be the United States. Like the Argentine, the United States not only holds large surplus carryovers of foodstuffs of which it would be glad to get rid, but each one of these starving countries holds in this country frozen dollar balances ample to pay for the food they need. Belgium, alone, has several hundred million dollars in assets here. It is then primarily a question whether it can be arranged to pass this food through the blockade if, at the European end, it can be taken in control by a tight, neutral agency which will supervise its distribution to non-belligerent, civilian populations only—and a guarantee that it will not fall into other hands.
